

**Docupace ComplianceEdge Trade & Account Surveillance,
Investment Reviews & Compliance Infrastructure**

**Smarter Surveillance. Proactive Compliance.
Always Audit-Ready.**

Why Choose Docupace ComplianceEdge?

Docupace ComplianceEdge delivers regulatory-grade trade surveillance and supervisory oversight designed for financial services firms. Simplify compliance management, reduce regulatory risk and keep your firm audit-ready with infrastructure built for efficiency, accuracy and control.

Audit-Ready Reporting

- Generate accurate, audit-ready reports in minutes
- Respond confidently to even the most complex regulatory requests with deep reporting capabilities

Core Features

Trade Surveillance and Post-Trade Oversight

- Configurable, risk-based alerts focus your team on high-risk activity while reducing unnecessary noise
- Post-trade and fiduciary review workflows document supervisory actions, including Regulation 9 requirements

Streamlined Supervisory Workflows

- Designed to efficiently mitigate firm risk
- Eliminate manual processes with rules configurable to your firm's policies

Integrated Data Aggregation

- Automatically aggregate, clean and normalize data from key sources, including FINRA
- Maintain accurate records with minimal manual intervention
- Maintain supervisory and fiduciary records with minimal manual intervention

Enhanced Data Security

- Industry-standard encryption, role-based access controls and data masking support regulatory-grade protection across financial services

Why Docupace ComplianceEdge Is the Trusted Choice for Surveillance and Compliance

1

Flexible Rule Configuration

Quickly adapt to changing regulations with rules that you can configure, test and modify based on your firm's needs.

2

Streamlined Workflows

Automate compliance tasks to reduce operational bottlenecks and free up your team for high-value work.

3

Rapid, Audit-Ready Reporting

Impress regulators with accurate reports generated in minutes to demonstrate your firm's compliance readiness.

4

Daily Alerts

Receive alerts for flagged transactions and route issues to the appropriate team for faster resolution.

5

Scalable and Reliable Platform

Handle increased volumes of transactions and changing compliance requirements with a solution designed to grow with your firm.
